

Applicant Fingerprinting Services

3M Cogent Applicant Processing Systems

3M Cogent has deployed applicant fingerprint service solutions in Alabama, Arkansas, California, Florida, Georgia, Ohio, Pennsylvania, and more. In each of these states, 3M Cogent worked with their respective state police agencies, various user agencies and numerous local businesses to put the programs in place. The states mandated, and 3M Cogent provided, applicant services and software solutions that allowed these agencies access to statewide fingerprint services and the background check results generated by our services.

Printing locations are determined primarily by geographic location and population density. Depending on availability, 3M Cogent can provide, at no charge, ALL of the computer and scanning equipment required to conduct this service. 3M Cogent provides all maintenance and assistance at no charge. 3M Cogent also pays a flat rate for each transaction conducted at these locations.

- All equipment is provided free-of-charge (no hidden charges, no set-up charges)
- 3M Cogent pays the service site a transaction fee for each applicant that uses the service
- Printing locations provide the labor and internet connection

Fingerprint service sites (print locations) would be required to provide only the space for the equipment, the associate(s) to run the transactions and an internet connection.

This is a great opportunity for businesses as it requires no investment other than the time it takes to learn the fingerprint

capture process. 3M Cogent engineers will install the equipment, train your operators, and maintain the equipment as necessary. We even provide toll-free support for questions or issues.

Purchase of 3M Cogent Applicant Processing Service (APS) LiveScan

The 3M Cogent LiveScan used in various Applicant Processing Service programs MAY be purchased by agencies or businesses in certain states who wish to print their own employees. In certain states, an application is required to obtain approval from the state to become part of the Applicant Processing Service Program.

With the purchase of this equipment come all rights, responsibilities and privileges. Those who purchase the 3M Cogent APS LiveScan will have access to the same secure connectivity as all other print locations. A broadband internet connection is required and there are no connectivity fees. 3M Cogent LiveScan users will have access to the same online registration, the same billing and payment options, the same reports, and the same accounting and account management tools as other print location users and sites. In addition, those who purchase a 3M Cogent LiveScan will receive, on a monthly basis, a payment for every applicant processed through their LiveScan. Buyers may make their LiveScan available for public use to maximize the benefit from this payment or they can choose to keep their LiveScan private.

If you wish to learn more, or are interested in providing this service at your location, please send your request to applicantsites@cogentsystems.com.
